aberrant behavior in children with disabilities 476

**Ability**
ability-achievement gap, factors related to 740
information seeking 328
reasoning about 108

abortion during adolescence and parental notification 867

absent children and nonresident parents time 927

**Abuse**
abusive and non-abusive dyads 765
abusive relationships, factors influencing 139
children, depression and attribution 795
development of self-regulation 957
long term sequelae of 820
memories of 775
Post Traumatic Stress Disorder 762
sexual and adoption to 781
sexual and children's development 764
sexual and interventions 444
sexual and interviews and false negatives 441
sexual and mediating factors 117
sexual and physical 806
sexual and revictimization 461
sexual and psychological disturbances 772
substance and antecedents of 777

**Academic achievement**
and adolescence 423
and brain injury 739
computer vs. regular instruction 760
emotional functioning, prediction of 555
effects of parents' assistance 110
family income 733
family structure 86
field-independence 285
functioning and breakfast 210
functioning and mental health 817
influences on 728
longitudinal study of 748
mothers and children 92
perceived 417
performance and sport participation 744
performance and use of background music 453
status and alcohol use 407

accents, children's comprehension of 368

activity choices 634

acts, evaluation of 719

**Adjustment**
and divorce 361
children and marital conflict 249
Chinese children 155
emotional adjustment to maltreatment 819
friendship and junior high school 836

**Adolescence**
academic achievement 423
agentic and conventional orientations 571

aberrant behavior in children with disabilities 476

**Ability**
ability-achievement gap, factors related to 740
information seeking 328
reasoning about 108

abortion during adolescence and parental notification 867

absent children and nonresident parents time 927

**Abuse**
abusive and non-abusive dyads 765
abusive relationships, factors influencing 139
children, depression and attribution 795
development of self-regulation 957
long term sequelae of 820
memories of 775
Post Traumatic Stress Disorder 762
sexual and adoption to 781
sexual and children's development 764
sexual and interventions 444
sexual and interviews and false negatives 441
sexual and mediating factors 117
sexual and physical 806
sexual and revictimization 461
sexual and psychological disturbances 772
substance and antecedents of 777

**Academic achievement**
and adolescence 423
and brain injury 739
computer vs. regular instruction 760
emotional functioning, prediction of 555
effects of parents' assistance 110
family income 733
family structure 86
field-independence 285
functioning and breakfast 210
functioning and mental health 817
influences on 728
longitudinal study of 748
mothers and children 92
perceived 417
performance and sport participation 744
performance and use of background music 453
status and alcohol use 407

accents, children's comprehension of 368

activity choices 634

acts, evaluation of 719

**Adjustment**
and divorce 361
children and marital conflict 249
Chinese children 155
emotional adjustment to maltreatment 819
friendship and junior high school 836

**Adolescence**
academic achievement 423
agentic and conventional orientations 571

at-risk youths and reputation 774
concerns and influence of age and gender 511
coping 863
decision making 864
drug use and role of mass media 909
family systems and development 550
girls, adjudicated and their mothers 457
high-risk adolescents, attitudes and behaviors of 770
issues facing adolescent women 879
moral reasoning 687
mothering in adolescence and interventions 508
mothers and non-mothers, adolescents 852
minority 621
parents, perception of parenting and intimacy 526
perception of mental health 443
psychosocial adjustment and adoption 238
psychosocial development 892
reading comprehension and deafness 419
risk of drug abuse 482
suicide among young and older adolescents 452

**Adoption**
adolescents, psychosocial adjustment 238
adaptive behavior 868
children with special needs 197
Colorado Adoption Project 12
effects of supply and demand 599
research and the Adolescent Family Life Program 604

adult roles, children's conceptions of 522
adulthood, transition to 592

**Affect**
infant characteristics and parental sensitivity 28
social competence 521

affection and helpfulness toward parents 860

agentic and conventional orientations during adolescence 571

**Aggression**
correlates of 562
decision processes 337
family predictors of 116
malleability of behavior in 1st grade 456
prediction of 825
reduction of 125
social-cognitive influences 167

**AIDS**
awareness in school 642
conversations between mothers and adolescents 880
psychological approach to 907

**Alcohol Use**
academic status 407
dependence, sequelae to abuse 796
effects of children's presence 792
parental awareness 147

altruistic behavior, influences on 157

**Anger**
developmental perspective 120
intergenerational effects 115
typology 123

**Antisocial behavior**
behavioral and gender differences 805
etiology of sex differences 502
genotype-environment correlations 132
intervention programs 138

**Anxiety**
disorders and parental rearing behaviors 787
in childhood and perceptions of 475
memory 338

arguing 42

arousal during infancy 501

articulation and phoneme awareness 397

asthma, treatment adherence 293

at-risk youths and adolescent reputation 774

athletic participation and leadership 856

**Attachment**
caregving 938
children and maltreatment 958
developmental patterns 536
effects on competence 579
emotional understanding 199
exploration, patterns of 937
follow up of adopted children 156
foster care 610
influences on 876
longitudinal study of 153
low-income children 483
maternal sensitivity 215
multiple relationships 558
psychosocial functioning 140
representation 711

**Attention**
cues and emotional expression 68
developmental trajectory in deaf and hearing children 73
low birthweight and attention deficits 395
preferences in infancy 335
scaffolding 40, 341

**Attention Deficit Hyperactivity Disorder**
assessment of 440
auditory processing 786
functioning in youths 626
learning disabilities 729
long term memory 794
memory deficits 666
neuropsychological assessment 3, 813
psychopharmacological treatment 771
relevance rate and school district 776
sleep disturbances 470

attractiveness and academic success 487

attributions, school age children's 342

auditory processing, and Attention Deficit Hyperactivity Disorder 786

**Augmentative communication**
alternative communications picture boards 393
recommendations or 458

authority and moral reasoning 54

**Autism**
affect 493
assessment of imagination 800

attention and grammatical development 383
chromosomal abnormalities 798
diagnosis is 821
early developmental factors 608
epidemiologist of 438
gains in literacy 136
gaze following 799
genetics of 295
intention 812
language and communication skills 614
memory 348
metamemory 339
motor impairments 811
neuropsychology of 119, 472
phenomenological characteristics 122
psychological and educational treatment 950
sleep patterns 282
social deficits and interpersonal relationships 612
time perception 672

autonomy and parental work 263

aversive behaviors, mothers and preschool children's 191

behavior patterns, generational results 158

behavioral competence, factors influencing 809

**Behavioral Problems**
behavioral and emotionally disordered students, placement of 429
parental involvement 763
school children 872

Big brothers, influence on separation-individuation 232

**Bilingualism**
early development 369
metalinguistic skills 667

biological versus social parenting 865

**Birth Order**
geographical proximity to parents 914
language development 351
second child, mothers' adjustment to 878
sibling sex ratio 146

birth weight and educational outcome 633

Black gifted males, influencing factors 101

body image and body mass 306

**Brain**
academic achievement 739
activity and cognition 716
activity and hemispheric differences 630
maturation 645

breakfast and academic functioning 210

bullying, short and long effects 791

bulimia and massage therapy 121

caffeine, withdrawal 625

**Cancer**
cancer treatment, adjustment to 917

cancer, understanding cause of 628
childhood 632

**Caregiving**
attachment 938
child interaction and early literacy 752
parent relationships in daycare 241

calculation ability 426

camp and psychosocial changes 488

categorical representation 373

charter schools, and disabled children 746

Child Adaptive behavior Inventory 207

child adjustment and marital conflict 249

**Child Care**
attitudes in different child-care settings 259
center based and children's experiences 187
child outcomes and child care, family predictors of 212
choice of 959
differences and childrearing attitudes 259
experiences and development 216
family and children's experiences 196
first year of life 252
selection, factors influencing 243
self-control 251
working in 934

child maltreatment and parenting styles 445

**Child Rearing**
father involvement 874
hemophilia 833
role of African American men 518

Child Stress Symptoms Inventory 953

children's health and psychosocial factors 895

children's multidimensional life satisfaction scale, application of 272

chronic disease and developmental progression 13

chronic illness in adolescence 594

circumcision and neural reorganization 301

class information and object mapping 347

classroom participation and self-modeling 512

closed head injury and reading 652

cocaine, newborn screening 845

**Cognition and cognitive ability**
addition, individual differences 21
age related influences 71
assessment of 670
children's health 793
development and physical play 23
growth and environmental input 50
in adulthood 41
language and activity 952
mental-attentional capacity 317
parent based assessment 713

parental influence 832
performance and behavior problems 437

color and racial attitudes 896

combinatorial speech and lexical acceleration 17

**Communication**
adults 326
intentional 56

comorbidity 766

**Compliance**
correlates of 830
developmental model of 573

computer-based tasks, influences on performance 693

conceptual systems, understanding of 388

conceptual understanding and problem solving 30

conceptualization and intentionality in infants 76

**Condoms**
beliefs and attitudes 897
use and education of 492

conduct, regulation of 128

conflict resolution 434

conformity, understanding of 52

congenital heart disease and psychopathological problems 639

conscience understanding, development of 390

contagion and family affection 935

contextual facilitation, understanding of 64

continuities, causal mechanisms 214

continuity, genetic contribution to 808

**Contraceptive use**
prediction of 873
self-efficacy 258

coordinated action, generation of 944

**Coping**
divorce 619
gifted children 223
in adolescence 863
strategies, gender, race and grade differences 223

**Corporal Punishment**
evaluation of Swedish ban 779
violence 803

corrective input, long term effects of 385

cortical activity and social behavior correlates 254

cosleeping in Japan and United States 638

cough, treatment of 296

counting and reasoning about numbers 22, 319

crawl, learning 2

crime and violence, effects on school behavior 837

criminal activity, predictors of 768

crisis phenomenon among adolescents 904

cross-cultural science education, differences in 727

cross-gender behavior an parent's attitudes 915

cruelty to animals 435

**Crying**
discrete or graded signals 292
newborn discriminations 339

custody evaluations, interviewing children 603

cystic fibrosis and massage therapy 300

daily lives of children, parents' knowledge of 495

daycare and caregiver-parent relationships 241

**Deaf children**
adolescents, reading comprehension 419
children and early intervention 498
language proficiency 20
spelling development 392
teaching of sign language 329
understanding of beliefs and desires 389
Vygotsky 617

death, concept in children 704

deception 371

deception, role of inhibitory processing 31

decision making in adolescence 864

**Delinquency and delinquent behavior**
acculturation 797
family transition 810
learning disabilities 804

**Depression**
cognitive-behavioral therapy 126, 278
continuity 808
family relations 152
gender differences 477
intervention 454
mother's competence, predictors of 449
psycho-affective development 559
self image 127
sexual abuse 829
symptoms and life events 824

developmental catch-up, factors related to 818

developmental expectations, parents 294

**Developmental disabilities**
friendship 176
molecular mechanisms 268

pervasive developmental disorder, subtypes 780
pesticides 286
review of 275
with attention-deficit/hyperactivity disorder 471

diet, birthweight 304

dieting, problems for adolescents 7

**Disabilities**
comparison of type of classroom 411
defining and assessing quality of early intervention programs 593
peer acceptance of 850

discipline, maternal behavior during 377

discontinuities and continuities, intergenerational 280

discourse skills, development of 665

discrimination shifts 964

Disneyland parents 927

disordered speech 655

distress in infancy 316

**Divorce**
adjustment to 361
coping with 619
educating parents regarding effects 924
longitudinal effects on father-child relationships 923

**Down Syndrome**
development in preschoolers 469
human figure drawings 118
phonological awareness 660
prenatal diagnosis and mothers' reflections 515

drawbridge phenomenon 378

**Drawing**
behavior 401
effects of nationality, age and teaching 651

**Drug use and abuse**
adolescence, risk of 482
adolescence, role of mass media 909
influences of 902
developmental influences 114
family structure 124
parents' protection 841
peer perception 524

drunkenness and peer influence 920

dual-earner couples, implications for children's daily lives 843

dynamic modeling and social cognition 227

Dyslexia Training Program, evaluation of 429

early categorization, object structure 67

Early Steps, assessment of 916

eating disorders and personality factors 134

educational expectations, predictors of 757

educational aspiration and family aspirations 284

EEG power spectra and reading 85

egocentrism during adolescence 383

emergent literacy, influences on 374

**Emotion**
adjustment and maltreatment 819
closeness and gender differences 484
decoding of 24
instability and developmental transitions 497
memory 372
regulation and peer social status 255
regulation and social competence 906
regulation in developmentally delayed boys 478
shyness 169
understanding and attachment 199

**Empathy**
prediction of in adolescence 528
role of older siblings 871

errors, perseverative 712

ethnic identity, differences among adolescents 561

exceptional abilities, theories of 943

executive functioning and theory of mind 48

experiences, interpretations of 598

**Externalizing behavior**
adoption study of 447
developmental pathways 298
factors influencing 142
social problems 773
extracurricular activity, outcomes of 500

facial expressions and ld 498

failure to thrive and achievement 737

fair chances, construction of 39

false and fuzzy memories, distinction 962

**False beliefs**
understanding, competence and performance 822
understanding of 690

family relations and political violence 835

family size and intelligence 893

**Family functioning and configuration**
achievement 733
centered early intervention and family outcomes 537
developmental test scores 195
early precursors 208
education and the WWW 894
educational aspiration 284
effects of leaving and returning home 180
instability and problem behaviors 479
interactions and psychological functioning 585
perception of 784
processes and adolescent adjustment 527
psychological well-being 932

relationships and children's emotional adjustment 581
systems and adolescent development 550
structure and adolescent drug use 124

**Fathering**
characteristics and children's performance 510
effects of divorce 923
factors influencing 595
infant-care providers 260
low-income and welfare reform 913
overview and conceptual framework 269
visitation 877

favoritism and subjective identification 145

feelings of difficulty, individual differences 95

female phenotype 945

fetal alcohol syndrome 622

field-independence and academic achievement 285

first words, transition to grammar 661

flags and flag-burning 349

foreign language acquisition, incidental 674

forethought, precursors of 658

foster care and attachment 610

free play use in preschoolers 869

**Friendship**
adjustment to junior high school 836
children's goals and strategies 557
influences on 532
characteristics and social cognitions 840
continuity and change 855
interactions among best friends 201
popularity 933
power of and peer victimization 516
reciprocity 529
similarities among friends and non-friends 186

fuzzy-trace theory and memory 940

game type and gender based preferences 839

gap effect in newborns 676

gaze, infant 702

**Gender effects and gender role**
antisocial behavior 805
depression 477
emotional closeness 484
emotional expressivity 584
expectation in actors 165
knowledge of 709
in video games 163
learning disabilities755
math performance 751
memory differences 334
moral development 691
parental questioning during toy play 75
preferences and game type 839
property-to-property inferences 654
reaction to children's cry 627
related issues in teaching 418
science projects 726
self-perception 743

typed toy play in twins 554

genetic influence on abilities 352

genetics and child psychiatry 960, 961

gestures during infancy and development of 889

gestures, convergence of thoughts 678

**Gifted children**
coping 223
education of 606
feelings and attitudes of 97

grade differences in self perception 743

grandmothers, profiles of 143

grandmothers' involvement in grandchildren's' care 842

grandparents caring for children 901

guilt 507

Handbook of Child Psychology 288

happiness and marital status 246

headaches and psychopathology 801

hearing and language impairments 722

help-seeking behavior and problem solving 224

helper characteristics 106

hemophilia and cognitive functioning 647

high-risk adolescents, attitudes and behaviors of 770

**HIV**
adolescent's attitudes 312
infection and neurocognitive effects 302
parenting self-efficacy 857

home background, impact of run aways 465

home environment, role of in motivation 99

homelessness and mental health 439

homesickness, protective factors 253

homework intervention programs, analysis of 111

homicide, epidemiologist of 854

hyperactivity as predictor of adult criminal activity 768

identity development, role of family services 936

idiom comprehension, effects of familiarity 671

ill newborns and medical complications 955

illness, prediction of and causation 53

illustrations, effects in textbooks 415

immune response to exercise 644

implicit sequence learning 363

improvisation and play 291

impulsivity as predictor of adult criminal activity 768

inclusion, students' perceptions of 758

inductive inferences in infancy 359

infancy, development of knowledge base 59

infant categorization, processes and changes 954

information processing and depression 669

inhibitory control, development of 588

**Inner-city children**
influences on boys behavior 172
influences on learning 360
intentions underlying pretense, understanding of 58

intelligence and family size 893

intergenerational patterns of behavior 183

*internationality and conceptualization* in infants 76

interpersonal relations and prosocial behavior 586

Inventory of Interpersonal Problems 600

irony and sarcasm, use of 941

junior high school, adjustment to 836

kindergarten, transition to 413

lacteal fluids, neonatal responsiveness 9

**Language and language development**
acquisition and semantic context 43
cognitive development 952
curriculum access 673
development and birth order 351
hearing impairments 722
impairments and spoken word influence of 682
interest in books 696
learning disabilities and mediators 432
impairments, explanation for 37
language, parental contributions 107
milestones, and events history approach 394
proficiency in deaf children 20
reading difficulties 659
recognition 36
lead exposure and cognition 364

leadership and athletic participation 856

***Learning***
behaviors, stylistic 325
*self-regulated and development 90*
strategies, power assisted 425

**Learning disabilities**
achievement 87
auditory processing 786
Attention Deficit Hyperactivity Disorder 729
delinquency 804

drawing performance 466
facial expressions 498
imagery deficits 412
intervention 420
language problems 552
school practice, discrepancies 422
social behavior 742
social outcomes 433
social persistence 754
utilization deficiencies 98

letter fluency, age and individual differences 707

lexical knowledge and overextensions 343

lexicon, early development of 318

life events and depressive symptoms 823

liking and disliking, factors associated with 244

lines, infants' responsiveness to 686

linguistic biases in word learning 35

**Literacy**
emergence of 82
foundation of 431

logical inferences and social interaction 69

logical necessity, understanding of 63

longitudinal data, methods of analyzing 939

looking behavior and detection of goal 62

looking by infants, long and short term 391

**Low birth weight**
attention deficits 395
infants, assessment at seven years 297
school age outcomes 309

lullabies and play songs, messages contained therein 381

lunar phases, ideas about 756

Macarthur Communicative Development Inventory scores and social class 18

maladaptive behaviors, environmental and genetic variance 130

**Maltreatment**
attachment 958
children and parenting styles 445
definition of 815
effects on preschooler's narrative 462
emotional adjustment 819
empirical observations on resilience 455
factors related to 814
impoverishment 459
peer relationships and self-esteem 148
prediction of 460
risk factors 769

maps, use of 29

marital behavior, six months postpartum 177

marital conflict and child adjustment 249

marital quality and parent-child relationship 239

marital status and happiness 246

orthographic knowledge, development of 668

pain, procedure related 607

**Parenting and parent education**
abduction and consequences of 866
and protection from drug abuse 841
and social support 857
anticipation of 882
child behavior, typology of 875
family adjustment to cancer treatment 917
influence on children's cognition 832
involvement and behavioral problems 763
knowledge and risk behaviors 648
legal status of 734
non-parents, stereotyping of toys 847
notification and abortion 867
protective process 890

**Parenting and parental involvement**
adolescent perceptions of 211
adolescent problem-solving 231
alliance and marriage 173
attitudes and number and order of siblings 194
behavior, children's perceptions of 161
comparison of models 222
effects on achievement 110
effects on reading 109
fathering and influences 170
infant development, correlates of 57
low income families 242
multiple caregivers 189
perception of 221
rural African American families 149
satisfaction with 229
styles and sexual efficacy 250
workplace and infant care 236
youth's psychological adjustment 262

**Parents and parenting styles**
beliefs and sibling management 551
child maltreatment 445
education and adolescent health 311
employment, short and long term effects 513
interaction and early intervention 463
maternal and paternal 566

parental assessment of acquired brain injury 299
self-concept 539
verbal aggression and children's self-esteem 474

**Parent-child interaction**
parent-adolescent interaction and children's well-being 240
parent-child conflict 200
parent-child relationship and marital quality 239
parent-child relationships, horizontal qualities 70
parent-child relationships in later life 274
parent-toddler play 846

passives, production of 323

PCB's and dioxins, effect on cognitive abilities 641

PCB's and neurotoxicity 279
peace and war, understanding of 271

pediatric headaches, treatment of 604

pediatric primary care and psychosocial problems 205

**Peer conflicts and influence**
drunkenness, 920
groups, perception of 96
networks and classroom engagement 753
paradox 816
preferences and problems in classrooms 430
preschooler 912
problems and prediction of 468
relations and continuity 517
social status and emotion 255
tutoring, effects of 100
victimization 305, 494
victimization and parenting behaviors 198

**Perception**
intermodal of adult and child faces 141
three dimensional cues 320
understanding of causality 386

**Personality**
cross-cultural perspective 596
dispositions and attributional style 514
life-span age differences 540

pervasive developmental disorder, subtypes 780

pesticides and developmental disabilities 286

pets, attachment to 192

**Phonological**
awareness 77
awareness and production 681
awareness, training of 404
sensitivity 327
translation in bilingual children 65

physical activity, stability of 643

physical discipline and employment status 523

**Play**
children with disabilities 230
conflicts 563
dyadic and conflict 899
immediate and ultimate functions 206
improvisation 291

influence of culture on 848
intellectual disabilities 131
nature and function of 218
physical activity 217
spatial ability 489
symbolic and social context 247
symbolic as narrative 400

political violence and family relations 835

**Popularity**
friendship 933
stereotypes of 531

positivity bias in children 565

**Post Traumatic Stress Disorder**
abuse 762
prevalence of 446
reactions to war 807

**Poverty**
and antisocial behavior 473
and school violence 844

preferences in newborns 653

**Pregnancy**
abuse 806
predicting risk 234
social contagion 228
teenage and experience associated with 831

premature newborns and disabilities 8

prematurity and longitudinal outcomes 333

prenatal alcohol exposure and neurological functioning 635

**Preschool and preschool experience**
experiences of advantaged children 112
general assessment of 267
peer conflicts 912

pretend, conception of 51

pretense, influence of fantasy 692

**Problem behavior**
core values associated with 785
developmental study of 802
parental discrepancies 921
risk and protective factors 179

**Problem solving**
cooperative 480
differences in 424
degree of social and interactive behaviors 72
use of conceptual understanding 30

**Problems**
and peer preferences in classroom 430
behaviors and depressive symptoms 464

pronoun case error 376

**Prosocial behavior**
children's adjustment 858
cognitive basis 543
influences on 499
interpersonal relations 586

prospective processing and memory 677

psychiatric disorders, prevalence of common 827

**Psychopathology**
and headaches 801
experimental analysis of 129

**Psychosocial adjustment and functioning**
adoption 238
and headaches 538
attachment 140
outcomes, influence on in African American families 233
problems and pediatric primary care 205
risk of women and childhood histories 237

psychosocial development in adolescence 892

psychosocial factors and children's health 895

Q methodology applied to early intervention 609

racial attitudes and color 896

racial identity 166

reactivity in infancy 356

**Reading**
achievement, course and malleability 735
comprehension and word meaning 34
comprehension in deaf adolescents 419
developmental differences 695
disabilities, dissimilarity 725
disabled children and memory deficits 413
disabled children and phonemic awareness 747
discrepancy 730
disorders 662
EEG power spectra 85
effects of commenting 684
gains by autistic children 136
effects of parent involvement 109
individual differences 19
influences on learning 367
instruction 409
intervention programs 427
metacognition 611
orthographic analogies 26
predictors of 366
remedial 741
representations 321
self-monitoring 93
speech detection 723

**Reasoning**
deductive and mediators of 55
in infants 16
in middle school science 759
recipient behavior, cultural influences on 905

reciprocity and friendship 529

reflexive constructions, use of 314

rejection sensitivity 164

relationship quality and development 929

relationships, differential in preschool children 491

relatives, production of 362

religious connectedness among African American families 556

religious transmission 834

report cards, reasoning about ability 108

representation in young readers 321

residential crowding and children's well-being 504

residential mobility among sibling mothers 570

resilience, perceptions of 922

Responsible Sexuality Program, effectiveness of 103

responsiveness to remedial reading, factors related to 741

**Risk and protective factors**
psychological adjustment 931
sexual and prevalence of 826
assessment and management 963

road crossing skills, role of parents 310

rule discrimination 731

rule knowledge, development and display 190

rule learning, development of 387

runaways, reasons for 564

salivary cortisol, assessment of 308

schizophrenia, childhood antecedents 135

**School**
adjustment and early environmental support 490
adjustment, factors influencing 104
entry, prediction of developmental outcomes 451
crisis responses, common errors in 94
understanding of 91

**School behavior and school violence**
effects of crime and violence 837
impoverishment 844
violence 105

**Science**
learning activities 732
learning of 88

self and other references in young children 519

self-awareness, test of 717

**Self-concept and self-esteem**
age differences 159
among high achievers 113
antecedents of 505
concept, structure and stability of 203
educational characteristics 416
factors related to 900
maltreatment 148
social respect 589
stability and self-perceptions 580

self-control and child care 251

self-efficacy and contraceptive use 258

self-evaluation, age trends 150

self-exploration and functional orientations 226

self-exploration in infants 710

self-image and depression 127

self-perceptions by young children 541

self-regulation and help seeking 224

self-regulation and school performance 421

self-worth, differences among adolescents 185

semantic context, role in language acquisition 43

semantic memory, development of 60

sentence production, assessment of 680

sex-category constancy 575

sex ratio and birth order 146

**Sexual abuse**
major depression 829
interfamilial and extra familial 783
prevalence and circumstances of 828

**Sexual behavior**
aggression among adolescents 530
attitudes, gender differences 587
behavior and the role of family variables 542
ethnic group membership 219
factors influencing 853
identification and treatment 133
number of partners and risk behaviors 257
partners and adolescent females 503
race and gender differences 144
risk taking and parenting 553
stereotypes, patterns of self-perception 569

**Sexual offenders**
assessment of 266
characteristics of 265

sexual orientation, development of 162

sexual risk factors, prevalence of 826

sexuality education, parents' opinions 745

shame 507

sharing with disabled classmates 545

short term memory, sources of change 663

shyness and emotionality 169

**Siblings**
children's perceptions of 560
interactions in married and separated families 193
resemblance in cognitive and behavioral outcomes 576

**Siblings and sibling conflicts**
conflicts and quality of relationship 910
endings to 925
interaction in formal care 861
quarrels 788

SIDS, REM sleep and CNS immaturity 629

**Sign language**
categorization 336
teaching of 329

**Single parenting**
anticipation of 882
choice 886
employment of single mothers, factors influencing 593
mother headed families, risk and protective factors 887
stress 870

**Sleep**
daytime functioning 14
disturbances and ADHD 470
patterns and autism 282
problems, behavioral treatment of 761
wake cycles of preterm infants 520

**Smoking**
implications of tobacco settlement 951
influences on adolescents 154
peer influences on 911
perceptions of 572

social acceptance, behavioral correlates of 213

social context and symbolic play 247

social cleavages and inequalities 160

**Social development**
behavior and learning disabilities 742
behavioral assessment of at-risk adolescents 956
cognitions and friend's characteristics 840
competence and affect 521, 549
competence and self-regulation 906
context in developmental psychopathology 695
inequities and development 885
information processing and prosocial behavior 549
interaction problems, detection 636
interaction skills and theory of mind 402
isolation, functional analysis of 838
judgments in preadolescents 883
responsibility in adolescence and parental influences 881
support from parents and peers 928
versus biological parenting 865

**Social Ecology**
of adolescence 283
of middle childhood 175

social expectations of gender 225

social interaction and logical inferences 69

socialization behavior by parents and children's peer competence 220

sociocultural developmental psychology 605

sociometry, general review 287

spatial contiguity, understanding of 705

spatial search, effects of locomotion 616

spatial skills, use of 715

spatial-temporal sequences, recall of 721

special education, disproportionate representation of groups 277

speech in newborns 650

spelling skills, development of 410

spirituality 290

sport participation and academics performance 744

stability of social withdrawal, longitudinal exploration 235

stages, existence of 33

STDs, differences in ethnic rates 151

stepfamily, living in and later adjustment 898

**Strategy**
changes 313
formation and temporal organization 350

**Street children**
causes of 273
characteristics of 533
citizenship 884
description of 618
descriptive study 926
influence of computer workshop 849
needs of 256
psychological and social influences 888

**Stress**
and support in families 209
and suicidal ideations
cholesterol level 4
effects on syllable omission 356
support in families 209

sublexical inferences 384

**Substance abuse**
adolescent peer orientation, parental influence over 486
prevention of 624

**Suicide**
attempts and psychiatric contacts 436
divorce 452
ideations and stress 790

support and stress in families 209

surface cues and interpretation 332

sympathy and emotional regulation 546

sympathy, prediction of 168

**Teacher-child**
interaction and social outcomes 204
interpersonal behavior 171
relationship, interpersonal behaviors 89
student interactions 102
teacher and children's play 84

teasing, evaluations of 918

teenage pregnancy, effects of 859

teenlines, calls to 485

**Temperament**
developmental models of 534
of preterm infants 637
preschool and environmental factors 182
vagal tone 6

temporal contiguity, understanding of 705

tense-aspect morphology 649

text comprehension 657

The Behavioral and Emotional Rating Scale 949

**Theories of mind**
capacity to hold in mind 45
children's literature 331
executive functioning 48
influences on 703
social interaction skills 402
teaching of 700
visual impairment 61

therapeutic childcare and follow up 467

thoughts, understanding of 720

time perception and autism 672

**Tobacco**
access to 623
exposure and impaired development 276

tolerance, judgments associated with 585

toys, gender stereotyping 847

transfer effects in poor readers 322

**Transitions**
detecting and modeling 601
developmental and new findings 613

transitivity, understanding of 697

trauma, betrayal 767

traumatic events, recollection of 946

Tros-Rivières Longitudinal Study 646

tween consumerism 567

two-earner families, adolescents' work values178

understanding of natural vs. artificial 749

vagal tone and temperament 6

value orientation, age and gender differences 483

veracity, inference on 380

verbal memory, organization of 683

video character smoking, influence of 525

video games, portrayal of violence and gender role 163

video, understanding of 78

**Violence**
adolescence, factors related to 245
corporal punishment 803
family and adolescent dating violence 862
role of exposure and developmental problems 181
schools 105
treatment of and martial arts 137

vision, color 1

visual processing 408

visual references in infants 714

visual impairment and theory of mind 61

**Vocabulary**
competence 25
development, parents reports of 379

vocalization in infants 724

vocalizations by infancy, event based analysis 407

vocational preferences and social contexts 930

voice, level of an influences 184

Vygotskian approach to self-regulation 957

Vygotsky and deaf children 617

war, reactions to and Post Traumatic Stress Disorder 807

weapon carrying and school of 631

welfare use, influential factors 578

well-being, influences on 261

WISC performance public and private schools 736

**Word(s)**
acquisition of word-object association 81
learning and linguistic biases 35
learning, early 79, 365
meaning and comprehension 34
segmentation in infants 699
thoughts 289

**Writing**
acquisition 685
and cognitive skills 358
instruments, invariances in use 47
